Dear Mr. Boumouzouna:

Thank you for your completed application to be accredited to the Global Environment Facility. It is my pleasure to inform you that Ong Agir En Faveur De L' environnement (ONG AFE) has successfully completed the process for NGO accreditation.

As an accredited NGO, your organization is welcome to attend the NGO consultation held prior to each GEF Council meeting and the GEF Assembly. The GEF is authorized to provide limited funding for each consultation to assist developing country NGOs participation. The network of accredited NGOs is responsible for selecting the individual who will receive this assistance as well as those who will represent the NGO community during the Council and Assembly meetings. Roles and responsibilities of NGO representatives to communicate with the wider NGO community, including responsibility for preparing for and reporting on, the Council meeting and Assembly and NGO consultations, are determined by the NGOs.

The GEF Website, <http://www.theGEF.org>, contains up-to-date and comprehensive information on GEF activities, including documentation for the GEF Council meetings. Correspondence will be transmitted to you through e-mail. Those who do not have access to e-mail will be sent information by fax or mail.

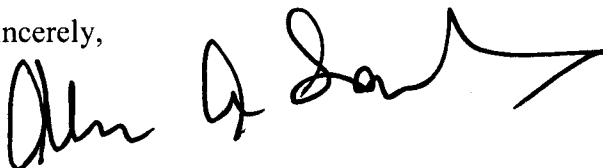

The NGO community has selected Ms. Dorothy Manuel, of ZERO Regional Environment Organization, Zimbabwe, as the GEF-NGO Central Focal Point, or GEF-NGO network Coordinator. Ms. Manuel will be of assistance in coordinating communications between the NGO community and the GEF. In particular, she will assist you in receiving information, seek your views on issues before the GEF and coordinate the selection of NGO representatives to attend Annual Meetings.

With a copy of this letter, we are informing Ms. Manuel, as well as the concerned Regional Focal Point of the GEF-NGO network, of this recent accreditation.

Please do not hesitate to contact us if we can be of any assistance to you. We look forward to working with you to promote our common interests of protecting the global environment.

With kind regards,

Sincerely,

Alaa A. Sarhan
